

THE GRANDMA SCAM FIREWALL

**PAUSE.
VERIFY.
CALL SOMEONE YOU TRUST.**

- Nobody legitimate needs you to panic.
- Never trust the number on the incoming call.
- Hang up and call back using a number YOU find.
- Never read out a verification code.
- Never move money because someone says it is “for your protection.”
- A family member asking urgently for money can still be a fake voice.
- If someone demands secrecy, STOP.
- If unsure, do nothing yet.

**WHEN IN DOUBT:
STOP. HANG UP. CHECK.**
